Lee Ann Womack, Thinkin' With My Heart Again

I only needed coffee Aisle four is where he caught me off guard Seemed like a lifetime Between his goodbye And by the way how have you been? He talked about the weather I thought of nights I held him so close There I go Thinkin with my heart again

His smile brought back the best times Sweet memories of nights together Stirrin up those old feelins That got me thinkin bout forever

He said I'd best be goin There's someone waitin for me outside And I'm dyin There he goes And here I go Thinkin with my heart again

His smile brought back the best times Sweet memories of nights together Stirrin up those old feelins That got me thinkin bout forever with him

I only needed coffee Aisle four is where he caught me Thinkin with my heart again
