

# Lee Ann Womack, Trouble's Here

Trouble's here but I ain't gonna worry  
About the way things are  
'Cause we've got a love that can light the fuse to the brightest star  
We got a big moon above us  
Shinin' through the dark  
I'll trade this mind full of troubles  
For a love burnin' up my heart

Darlin' we got something, hard to define  
I know it's love but it's love of another kind  
It melts away worrie like the desert sun  
We're two hearts a poundin' to the beat of a different drum

Trouble's here but I ain't gonna worry  
About the way things are  
'Cause we've got a love that can light the fuse to the brightest star  
We got a big moon above us  
Shinin' through the dark  
I'll trade this mind full of troubles  
For a love burnin' up my heart

I like the way you hold me, and your kissin' too  
I love the sweet-talkin' words you say when I'm feelin' blue  
Swear I'm in love with you baby, and I'm crossin' my heart  
There ain't enough trouble in this whole world tha can keep us apart

Trouble's here but I ain't gonna worry  
About the way things are  
'Cause we've got a love that can light the fuse to the brightest star  
We got a big moon above us  
Shinin' through the dark  
I'll trade this mind full of troubles  
For a love burnin' up my heart
