

# Lee Greenwood, Didn't We

I think of all the times I needed you  
And you would come to me  
Cause you wanted to  
Ohh and we'd build a fire  
That would last through the night  
Still be bruning in the morning light  
Oh we must have had a thousand ways  
Oh taking our breath away  
We took a chance or two  
Didn't we  
And made some mountains move  
didn't we Ohhh  
Then from out of the blue  
The storm clouds came  
It started raining  
We just let it rain  
Oh...careless love  
Oh...careless love  
Sadness yes  
But no regrets  
When we had it baby  
Oh we had the best  
Didn't we  
I'm asking you, didn't we  
Oh....didn't we

And every now and then  
My feelings show  
And it takes me awhile  
To let you go  
Don't you know  
You were more than a lover  
More than a friend  
Never before  
Never again  
Ohh It'd be you and me  
We had, had it good didn't we  
I want to say  
Oh we must have had a thousand ways  
Oh taking our breath away  
Oh will it be will it be you and me  
Oh we had it good  
We had it good  
Didn't we
