

Lee Greenwood, Love In Time

When I look back on where I've been
It's a wonder I survived
Those reckless nights
Not long ago
Trying
There was no tomorrow
Yesterday
Getting nowhere fast
Burning my bridges
And building defences
Around my heart
I was alone in the dark but
Chorus
I found love in time
You reached my heart
And changed my mind
Just before I crossed the line
Driving down a Texas highway
As the sun rose in my eyes
I didn't see the need for anyone
Now it's clear
And I know how much I hurt myself
But I felt no pain
I needed someone
But I just kept running
So far away
It was almost too late, but
Repeat chorus
Now that you're here with me
I can't believe that I ever fought it
You make it so easy to be with you
Repeat chorus
