

Lee Kernaghan, Electic Rodeo

Life is like a rodeo
That ride can throw you around
It can take you to the heavens
Or send you crashing to the ground
And it's not a dress rehearsal
It's learning as you go
And I'm just another rider
In this electric rodeo

Put on your boots and saddle
Ride that mustang out the chute
Sometimes you win sometimes you lose
But you gotta take your chances
And give that dice a throw
When you ride the electric rodeo

I can't promise there'll be no hurting
I only wish I could
There'll be times I let you down
Be someone less than I should
But girl this life I give you
Is the only life I know
I want to ride with you forever
In this electric rodeo

Put on your boots and saddle
Ride that mustang out the chute
Sometimes you win sometimes you lose
But you gotta take your chances
And give that dice a throw
When you ride the electric rodeo
When you ride the electric rodeo

Life is like a rodeo
Dreams are won and lost
It's the way it's always been
For cowboys like us
