

Lee Kernaghan, You Rock My World

There was nothin' going on in this old town
Just one street and the shop's shut down
The sun has come the grass is dry
You came kicking up dust as you rolled by
With tangled hair and spirit free
Something stirred inside of me

You rock you rock a country world
And you roll me in your loving ways
And you shook you shook the stoney ground
Go girl
You rock my world

Your wide smile turns hard and thin
When your horse plays up and he wont give in
Well I'm amazed at everything you do
Like a desert fire I burn for you
Well there's a power I can't explain
It's like thunder rollin' across a plain

You rock you rock a country world
And you roll me in your loving ways
And you shook you shook the stoney ground
Go girl
You rock my world

Your eyes so deep they draw me in
And you take me higher than I've ever been

You rock you rock a country world
And you roll me in your loving ways
And when you shook you shook the stoney ground
Go girl
You rock you rock a country world
And you roll me in your loving ways
And you shook you shook the stoney ground
Go girl
You rock my world

Yes you rock my world
Rock my country world
C'mon baby dont you rock it
