

Lee Roy Parnell, Down Deep

Down deep in my heart and soul
There's so much love for you I want you to know
You mean the world to me you are my everything
Down deep down deep

Sometimes I know I don't show my love
And there are times I don't give enough
I seldom ever do all that you need me to
But darling I promise you

Down deep in my heart and soul...

[sax]

I get caught up in that old day to day
Before I know of the time slips away
I haven't held you and told you I care
But darling the feeling's always there

Down deep in my heart and soul...

You mean the world to me you are my everything
Down deep down deep
