

Leech, Powerfields

Powerfields

The light that you shine
Stays on and lays above all
The signs are emerging
United on fields of mind

Move
Cause move you should
Before it comes down
Crumbling once and for all
Time
We have no time
We must resolve the secrets
And pathways
To find the source
It leads to the source
To find the source

You can not control me cause I move on powerfields
You can not control me cause I move on powerfields
I will move
I will move
I will move
On Everybody

We
Dig our own hole
Throw the first stone
Complete with locusts and all
Force
We must use the force
The powerful plains that lay across the universe

We must find the source
We must find the source

Breed from the energies of the powerfields
Brother we weren't born here our hands bound
We're flying around

You can not control me cause I move on powerfields
You can not control me cause I move on powerfields
I will move I will move I will move
On everybody
