

# Lefty Frizzel, James River

James River is long and it's narrow it's rocky and wide and deep  
The women are dark eyed beauties and the men don't ever sleep  
A dark eyed bundle of a woman stands waving on the bank I see  
The dangers are plenty but the pleasures are many  
I know James River man will ever stop me  
So when the sun goes down and I sneak around trouble is everywhere  
My boat head the bank so they can see no James River man will ever stop me  
( banjo )  
The holes in my boat are many hot licks flyin' again  
The James River boys're jealous they all hate the mountain man  
There's a sweet bundle...  
I know James River man will ever stop me I know James River man will ever stop me  
I know James River man will ever stop me
