

Lefty, Good As It Gets

Stop the lies
And I'll promise not to shut you out
I'd give you everything
If you'd only throw away your doubts
Shut the blinds
Open the door
Fifteen times
Fifty bars of soap
And you use each one
Never more than twice
And I need to know
Where you run to now
I need to know
Where you run and hide

Cause it doesn't get better
And it don't get worse
Always stays the same
Cause it's as good as we can get
(Can get, Can get)

Take a walk
And never step on any lines or cracks
Bring the food
It's always wrong
You always send it back
Clean the floor
And line the shelves
But it's never right
Set the table up
The spoon the fork
And then the knife

Cause it doesn't get better
And it don't get worse
Always stays the same
Cause it's as good as we can get
And I need to know
Where you run to
I need to know
Where you run and hide

Cause it doesn't get better
And it don't get worse
Always stays the same
Cause it's as good as we can

Doesn't get better
And it don't get worse
Always stays the same
Cause it's as good as we can get
It's as good as we can get
It's as good as we can get
It's as good as we can get
I need to know where you run to
