

# Lefty, See Through Me

The car is parked  
Her mom and dad  
Are fast asleep inside  
She sits across from me  
She licks her lips  
And bats her eyes  
The time to make the move is now  
I slide across the seat  
I want to try and take it slow  
I hope she don't reject me  
Don't think I could take the blow  
I get the nerve  
And slide my hand inside her skirt  
She crossed her legs  
And broke my wrist  
And yeah it f---ing hurts  
The pain is killing me

I know I'm not alone  
I'm not the only one  
Broken to the bone  
See through me now

It's three weeks later  
And we cut the cast and hit the town  
Crazy scene and everybody there  
Was getting down  
I want her badly  
So I waited for her in the hall  
Looked into the room  
And she was in a free for all  
The pain is killing me  
It's f---ing killing me now

I know I'm not alone  
I'm not the only one  
Broken to the bone  
See through me now

I know I'm not alone  
I'm not the only one  
Cut me to the soul  
See through me now

Won't you tell me why  
She's doing this  
I want to know just why  
She's doing it

Won't you tell me why  
She's doing this  
Doing it

I want to know right now  
So won't you tell me right now  
I want to hear it right now  
So won't you tell me right now  
Why she's f---ing with my head
