

Lefty, Up Til Now

Been so good
Up till now
Wonder when it's gonna start
Breaking down
Been so good
Up til now
Wonder when it's gonna break down

Ever wake up
And you're face down in the pavement?
Can't say I never did
Every now and then
I guess you're gonna get a little faded
I don't know why
I still get high

Been so good
Up till now
Wonder when it's gonna start
Breaking down
Been so good
Up til now
Wonder when it's gonna break down

Never said
The way that I did it was right
Never said anything
Still I always gotta hear
Why why why
I can't deny
I still get high
You better watch what you do
And what you say
Because you're only
Gonna bring somebody else down
Misery loves company
That's why I keep you
I don't know why
We still get high

Been so good
Up til now
Wonder when it's gonna start
Breaking down
So good
Up til now
Wonder when it's gonna break down

Been so good
Up til now
Wonder when it's gonna start
Breaking down
So good up till now
Wonder when it's gonna break
Yeah, I wonder when it's gonna break
Yeah, I wonder when it's gonna break
Yeah, I wonder when it's gonna
Start breaking down
