

Lefty, Useless Superstar

another superstar set in place
and for a year they shove him in your face
then he's burned out on a tabloid cover
strung up and left for dead
nothing left of him now
he's useless
nothing left of him now

started out an underground sensation
androgynous a king or the queen
looks the best when he's near starvation
someday they'll fix his teeth

nothing left of him now
he's useless
take all the pictures back down
useless
nothing left of him now
they'll use him till
there's nothing left now

see him falling down through the charts
he's falling faster falling farther
can't find his way through the plagiarizing assholes
they stole his art and repossessed his car

nothing left now:useless
nothing left now:useless
