

Legion Of The Damned, Bleed For Me

Bleed... for me

Bleed... for me

Vulgar existence in a world devoid of meaning

Governed by totalitarian manipulations

No blood and soil, nor gold or god I serve

Nothing held sacred has survived the deconstruction

I want to live and there is nothing to quench my first

So I immerse myself in relentless nihilism

Nothing left but the ecstasy of the fight and flesh

Lose oneself in vitalistic decadence

I am a curse born to lay your world to waste

Like a rabid dog bound to ravish and slay

I am a warrior of death on a transcendent trip

A violator risen to tear your world to shreds

Abode of chaos anarchy from the abyss

Left hand adept to rip the veils of death

I am a curse born to lay your world to waste

Like a rabid dog bound to ravish and slay

Bleed... for me

Bleed... for me

As all of value... has turned... to dust

Nihilistic aspirations just remain

Where there is really... nothing... of worth left

Illuminate yourself on the path of flesh
