

# Lemar, Can't You See - Lemar, Mica Paris, Styles

Since back in the day  
We've been close friends  
You would call on me telling me your problems  
I'd been feeling things, things i never said  
When you said that you were in love  
Wish it was me instead  
I'd treat you like an angel  
He treats you like a fool  
When you were hurting baby, i was broken too  
And i can't go on  
I need you baby

[Chorus]  
Tired of being the shoulder you lean on  
Wanna be the one you hold on to  
More than just a friend  
Let me be your everything  
Wish i knew the way to make you  
See that i've fallen in love with you  
Can't you see i love you baby

If i sit you down, tell you what i'm going through  
Will you leave him?  
Will it be too much for you?  
Don't wanna be an addition  
To your situation

I never wanna be a complication  
But if i see you cry  
I'm stepping in  
I can't keep watching you get your heart broken

[Chorus]  
I ain't never said that i loved you  
More than the friend that put nothin above you  
And i could be more than the shoulder you lean on  
I could be your king little lady, you'd be gettin your queen on  
It hurt me everytime i seen him hurt you  
Thinkin 'bout these feelins got me runnin in circles  
(I can't go on this way)  
I love your mind, body and soul, and even your perfume

[Chorus x2]  
Whenever you're down, a mess  
I will be there baby  
I will lift you up when  
When there's trouble girl  
Look over your shoulders honey  
When there's (trouble)  
You can count on me
