

Lemar, Dance

Dance dance dance
Dance dance dance
Makes me wanna dance

When I saw you girl I knew
That you were something
Out of a story book
And I told my heart that
We gotta take one look
I imagined both me and you
Doing what lovers do
Holding hands in the park
Making love girl after dark

The ooh the aah the ooh
The sounds of the
Birds and the bees
Bringing you to your
Knees is all I wanna do

Dance dance dance
Dance dance dance
Makes me wanna dance

(Chorus:)
I just wanna dance with you
I just wanna roll with you
I just wanna be the one that
Really gets to know you
I don't care and I don't mind
I will spend a whole lifetime
This is what it takes for me to
Hold it down and make you mine

Everyday spent like the first
Taking us right back to
The birth of our love
Seems to me as if I will
Never get enough
Thinking 'bout the way
That we first kissed
It was a night like this
We stayed together
Everyday ever since

The ooh the aah the ooh
The sounds of the birds
And the bees
Bringing you too your
Knees is all I wanna do

Dance dance dance
Dance dance dance
Makes me wanna dance

(Chorus)

The only thing between
Us is the floor
The dj's playing our favourite song
So lets not take too long
I wanna dance all through
The night with you!

(Chorus x2)

Dance dance dance
Dance dance dance
Makes me wanna dance
