

# Lena Philipsson, My Name

This is the story about love  
When you are struck by love  
Don't let go, don't let go  
I say, say, say  
I was walking down the street  
And suddenly I saw this man  
Ooh, and I felt he was one of my kind  
And he surely looked my way  
And what did you say - well I said to myself  
It's now or never  
And what did you do - dooo, well girls,  
I walked up to him  
cleared my throat and said  
My name is Lena Ph  
I am a secret agent in visions  
I travel through time and space  
I am a moving face in your senses  
In anyway you like it  
In anyway you want it  
I'm the woman for you  
In anyway you love it  
In anyway you need it  
I'm the woman for you  
Ooh, tell me darling -  
Where did you get this fancy smile  
I wanna show you so badly,  
Everything I am tonight  
And what did he do - well you know how it is  
When you're struck by love  
You gotta sit down and catch your breath  
And what he say - say, say, what did he say  
He just smiled at me  
So I'd better tell him once again  
My name...  
Come along - it can't go wrong  
Come along - it can't go wrong  
I can show you a colour  
You've never seen before  
I can give you a taste of land  
You can explore  
An interchange of our chemistries  
In the universe of confidence  
Don't worry about the hugging  
The kissing and the loving  
'Cause I'll teach you all I know  
About the birds and the bees  
We can laugh together  
We can cry together  
We can fight together  
We can travel the world  
My name...  
Play it again Sam  
Say it to me  
Say it to me  
That's a story about love
