

Leng Tch'e, Human Ignorance

[lyrics : Isaac]

How come that we are such ignorant and
bigheaded fucks like we own the universe

How can we hate each other so much, how can we hurt each other so much
we think that we are so smart, but that is not true
are we really that stupid, are we that ignorant
why the hell are we so fuckin' arrogant

Everyone's a big egoist
only think about yourself
caressing your own ego
searching for your own profit

Why do we crow ourselves as the rulers of the world
while all we do is create our own destruction

I despise you for what you say,
for what you do, for what you are,
for just being alive, for being human
