

Leng Tch'e, Initiate Murder Sequence

(lyrics : Sven)

How can one decide on the fate of a whole nation?
How can one decide on global extinction by pushing a button?
Life to you is a contest for power

Basing your judgement on monetary rules
cashing in, live your utopia, why shouldn't you?
Judging the world to be puppets and fools
egocentrism and pride will decide on our fate
your power is a contest for our death...
