

Lennon, Another For Another

Verse:

Light my cigarette and pour myself another drink
Save my place at the bar you know the one where I sit and think
I feel you watching me out of the corner of your eye
I think you might be the fun I'm looking for tonight

Chorus:

But if I take you home, we leave our names at the door, no questions asked, no stories told
This is all I want, I don't need anymore
So if I take you home, we leave our names at the door, I don't want your number, I won't bother to
You're just another for another night

Verse:

Everyone knows my name but only half the story
If you're looking for company they'll send you my way
But if you're looking forever you best keep looking
Tonight I'll offer my body but I'm not giving love away

Chorus:

But if I take you home, we leave our names at the door, no questions asked, no stories told
This is all I want, I don't need anymore
So if I take you home, we leave our names at the door, I don't want your number, I won't bother to
You're just another for another night

Bridge:

(Musical)

Close the lights I don't want you to see me like this
I don't want to be looking for someone else's eyes
Take what you came with, I don't want to remember
You're just one of so many

Verse:

Glad to see you followed my rules perfectly
Waking up alone is the only way it should be
Looking forward to another drink, another cigarette
And finding another who'll take the place you left

Chorus:

But if I take you home, we leave our names at the door, no questions asked, no stories told
This is all I want, I don't need anymore
So if I take you home, we leave our names at the door, I don't want your number, I won't bother to
You're just another for another night
You're just another for another night
