

# Lennon, Couldn't Breathe

Welcome me into your family  
You try to show me the other side  
Show me what I've been missing  
You try to give me your life  
I'm not trying to be the rebel  
Just want my God-given right  
If I'm gonna fuck up my own life  
I'm gonna do it right

(Chorus)

And I was too far to stand with you tonight  
And I was too lost to find my way home  
There was just this breath of air between us  
And I couldn't breathe

Sitting back for a moment  
Thinking about a lifetime  
Of being alone without you  
Remember lying in your arms  
One thousand feet off the ground  
One thousand feet off the ground  
The idea of jumping just never came up

(Chorus)

Breathing in and breathing out  
I feel the air escape my lungs  
Taking what was on my back  
From the other side we came out from  
Maybe all I have is you

Your looking through me  
Seeing inside me something I couldn't be  
Standing on my ledge  
Taking my jump  
It wasn't the out that I need

(Chorus)
