

# Lennon, I Hear

Curtains swaying the windows closed  
Ghost of the wind knocking at my door  
Is that you checking on me  
Bring the fire to set me free

(Chorus)

Chill my body make it cold  
Warm me up and let it go  
I hear voices in the air  
It's too strange no one's ever there

Little drummer play my march  
Bring your beat, drown out the dark  
Ghosts walking above my grave  
The cold washing souls away

(Chorus)

(Breakdown)

And why I question the only questions  
I already knew the answers to  
So I wish I could count quietly in a crowded room  
Till we were only standing there  
In another time, another life, another place  
And the only thing one could hear  
Was the soft whisper of 4, 3, 2
