

Lennon, My Sins

Verse:

Love affairs with ghosts
Always end in shame
Breaking bread with demons
Just to see his face

A silenced alibi
Protected by your words
Heal your darken eyes
With their lives

PreChorus:

Suicide by numbers
Behind the two way glass
Count your blessings, sister
The sacred never last

Chorus:

I don't need a savior
You are not my god
I don't want forgiveness
I will carry my sins, carry my sins alone

Verse:

On your bended knees
Take the one you please
Offer all you were
For you are nothing to me

PreChorus:

Suicide by numbers
Behind the two way glass
Count your blessings, sister
The sacred never last

Chorus:

I don't need a savior
You are not my god
I don't want forgiveness
I will carry my sins
I don't need a savior
You are not my god
I don't want forgiveness
I will carry my sins, carry my sins alone
