

Lennon, Reason

Verse:

Eyes hurt I can hardly see
Someone stole my clothes they're trying to be me
Windows are foggy, stranded in this rain
Just another problem I don't care to explain
Don't want to be a part of your chain
Every reason's a reason

Chorus:

Every reason's a reason to complain
Railroad ticket for this broken down train
All this shit is driving me insane
Every reason's a reason to complain

Verse:

Hole in my pocket, my life's trailing behind me
Every word he says has to bring me down, bring me down
Grab my coat and hit the road
Too bad there's no where to go

Chorus:

Every reason's a reason to complain
Railroad ticket for this broken down train
All this shit is driving me insane
Every reason's a reason to complain

Verse:

In my life there's no destination
We'll say it's perfect and pretend
I'll say I love you
That's where it ends

Chorus:

Every reason's a reason to complain
Railroad ticket for this broken down train
All this shit is driving me insane
Every reason's a reason
Every reason's a reason to complain
Railroad ticket for this broken down train
All this shit is driving me insane
Every reason's a reason to complain
To complain, to complain
