

# Lenny Kravitz, Lonely Rainbows

Vanessa

Tonight, I'm yours

And you are mine

I know a place we can hide

I know a place

Where we can finally see the rainbow

And we can fly fly fly fly fly

I know a place

Over the lonely lonely rainbow

Where we can make things right

I know a place where we can

Always be together

And we can go tonight

Lenny

I know a place where we can live our lives

And I know a place

Where we can see the light

Vanessa

I know a place

Over the lonely rainbow

Where we can make things right

Over the lonely lonely lonely lonely rainbow.
