

Lenny Kravitz, Take Time

You can have it if you really want
You can grasp it if you have the thought
Feel your power that is deep within
Are you ready?
On your mark begin

We should take time out to really love
We should find out who we really are
We should take time out to really love

Do you feel your life's a big mistake?
Don't you hate the way it's all so fake?
All I wanna do is just be real
And get off of the spinning wheel

All they sell us is a pack of lies
And we're buying one in every size
Can't you see it in the children's eyes?
It's about to get wild

We should take time out to really love
We should find out who we really are
We should take time out to really love

Ha yeah
We should take time out to really love
We should find out who we really are
We should take time out to really love

We should take time out to really love
We should find out who we really are
You can have it any way you want it
You can have it any way you want it

We should take time out to really love
We should find out who we really are
You can have it any way you want it
You can have it any way you want it

We should take time out to really love
We should find out who we really are
You can have it any way you want it
Any you want it
You can have it any way you want it
Hey hey

We should take time out to really love
We should find out who we really are
You can have it any way you want it
Any you want it
You can have it any way you want it
Hey hey

We should take time out to really love
We should find out who we really are
You can have it any way you want it
You can have it any way you want it
