

Lenny Kravitz, This Moment Is All There Is

Will there be tomorrow
Tell me, how can you be sure
There ain't always next season
There ain't always an open door

Life is dear, don't you waste it
The future no one can see
So step aside and let it be
Tomorrow may wash away
Don't put off what you do today
Take advantage while you are here
'Cause this moment is all there is

Do you smell the flowers
While they are still here in bloom
Does there have to be a reason
If you don't think we'll be gone real soon

Life is here can you taste it
The future no one can see
So step aside and let it be
Tomorrow may wash away
Don't put off what you do today
Take advantage while you are here
Cause this moment is all there is

Don't live in fear and weakness
Don't live and hide it all, does your
Your ability to taste the sweetness...sweetness
And that is what we are here for

Life is real, don't you fake it...oh
The future no one can see
So step aside and let it be
Tomorrow may wash away
Don't put off what you do today
Take advantage while you are here
Cause this moment is all there is...there is

This moment...the future no one can see
So step aside and just let it be
Don't wait for tomorrow
