

Lenny Kravitz, We Want Peace

Here it is once again in our face
Why havent we learned from our past
Were at the crossroads of the human race
Why are we kicking our own ass
We want peace, we want it
Yes we want peace, we want it
Yes we want peace
And we want it fast
We want peace, we want it
Yes we want peace, we want it
Yes we want peace
And we want it fast
Were on the eve of destruction my friends
We are about to go too far
Politicians think that war is the way
But we know that love has the power
We want peace, we want it
Yes we want peace, we want it
Yes we want peace
And we want it fast
We want peace, we want it
Yes we want peace, we want it
Yes we want peace
And we want it fast
The solution is simple and plain
There wont be peace if we dont try
In a war there is nothing to gain
And so many people will die
We want peace, we want it
Yes we want peace, we want it
Yes we want peace
And we want it fast
We want peace, we want it
Yes we want peace, we want it
Yes we want peace
And we want it fast
