

# Leon Haines Band, I Wanna See You Now

I Wanna See You Now

I put the TV on  
switch the channel's around  
but I can't keep my eyes are on the screen

I fix myself a drink  
walk through the empty room  
and I wonder what your leaving has brought me

I've found my evening's filled with boredom  
night time's filled with restlessness  
and days are dragging on without an end

and I know we've talked it over  
and we had it all figured out  
but I couldn't work that way  
I wanna see you now.....

I can't stop worrying  
now that you are gone  
our way of living's always on my mind  
tell me what is all that bad  
that we have to quit  
I can't imagine it was worse than this

I've found my evening filled with boredom  
night time filled with restlessness  
and days are dragging on without an end

and I know we've talked it over  
and we had it all figured out  
but I couldn't work that way  
I wanna see you now.....

I wanna see you now  
I wanna see you now  
I wanna see you now.....
