

# Leona Lewis, I Can't Say Hello

When I see you come my way  
I lose all composure  
Cause it's you I want but I'm too scared to tell you  
Mama tried to raise me right  
Saying think before I talk, be careful where you walk  
Be careful who you're loving  
But when it comes to you I'm nervous  
The words don't come out right  
All I want to do is hold you, but I can't seem to say  
No one's ever had an effect on me like you do  
Oh I wish that I could tell you, that I'm feeling you  
Just want to say hey what's up with you  
I'm free so what you want to do  
Let's go chill and we can spend some time alone  
But I can't even say hello  
I can't let you pass me by  
I can't even speak I get so shy  
Let's go chill and we can spend some time alone  
But I can't even say hello  
Boy you got me strung on you  
I can't get you off my mind  
And I'm so confused cause I don't want to lose you  
From not having the words to say  
Can we go out some time?  
Because I think that you're fine  
And I want to make you mine  
I just want to tell you boy, tell you how I really feel, I feel inside  
But it never comes out right  
I just lose the words to say  
The words to say how much I really feel inside  
But it never comes out right  
Just want to say hey what's up with you  
I'm free so what you want to do  
Let's go chill and we can spend some time alone  
But I can't even say hello  
I can't let you pass me by  
I can't even speak I get so shy  
Let's go chill and we can spend some time alone  
But I can't even say hello
