Les V.R.P, Tabernacle!

It's not natural If it goes against God It's not factual Her truth is not hard It's not natural If it goes against God It's not factual Gimme the truth!

Listen to the lyric as the negative is shrinkin

It's shrinkin out your life when you decide to change your thinkin

One of the first things we gotta switch around of course

Is Jesus Christ, and him dying on the cross

You're looking at the cross, surrounded in it's mystery

With Jesus on the cross in a, total misery

Now seperate Jesus from the cross so you can see The truth about the cross, and the cross's history The cross was created by the Roman government It's only purpose and use, is cap-i-tal punishment But Jesus Christ, was all about the revolution

While the cross was used as Jesus Christ's execution

See what if Jesus Christ, was hung upon a tree

Upon every church wall, that's exactly what you'd see If Jesus Christ, was shot in the head with no respect

We'd all have little gold guns around our neck If Jesus Christ was killed in electic chair, now get it

You'd be knealing to the electric chair with Jesus, still in it You gaze upon the cross, and you see the execution You yell stop the violence but the cross you're still using

It's not natural If it goes against God It's not factual Her truth is not hard It's not natural If it goes against God It's not factual Gimme the truth!

So I say listen, listen, open up your third eye vision

God is not down with religion

Religion they be sellin it, listen up, God is intelligent

Reading of the bible is irrelevant

You gotta look within yourself, not a scripture KRS-One comes to rearrange the God picture

If you sit and believe, you can acheive

If you sit and accept, you don't know, what's correct

or incorrect, take for instance Adam and Eve

The first two people on the planet, or so you believe Their first time in heaven kids they had, Cain and Abel Huh, now let me show you why the story's unstable According to the story, according to what you believe

There was only Cain, Abel, Adam, and Eve on the whole planet, now use your intellect and tell me, what did Cain and Abel do for sex? Upon the whole planet there was not another

Could it be for sex, heh, they were looking at each other?

Hold up! I thought the church wasn't into that

But wait, still yet, there is another fact How did the world get populated?

Now tell me if I'm wrong, but obviously Eve had it goin on

Think for a minute, I know it gets notorious

But yo G, check out the chorus

It's not natural If it goes against God It's not factual Her truth is not hard If it goes against God It's not natural If it goes against God It's not factual Gimme the truth!
