

Leslie Mills, Different For Girls

Driven by her
Will to survival
She's always standing by
To meet you
Riding a wave
Pretty she makes
The most of your honest words
you say that you can't let her in
Don't mind if she needs you
(Chorus)
Go ahead cuz it's different for girls
Yeah it's always been
Different for girls
He says he just needs time
Oh oh
He was so sure
The first time he felt that way
Until she said no no
There's not a chance to give me
Chorus
Lock-down in understanding
Break-up the morning after
Watch out for daisies falling
Lost in wonder
Chorus
