

# Letter Kills, Radio Up

Turn the radio up and we'll sing  
A song to bring you back  
Turn the radio up and we'll sing  
A song!  
Turn the radio up and we'll sing  
A song to bring you back  
Turn the radio up and we'll sing  
A song!  
A song!  
You could never be  
Just making sure that you can see  
Something's right  
Something's better off  
Without you  
A song!  
Check the volume of your heartbeat  
Make sure it is loud as your last  
Why don't you just hold on to this,  
You're, you're missing the point.  
You never could believe,  
Here comes the sad part  
I'm just making sure that you can see  
Something's right  
Something's better off  
Without you  
Something's right  
Something's better off  
Without you  
We could be better now  
We could be better now  
We could be better now (Now you could believe)  
We could be better now (Now you're gone)  
We could be better now (Now you could believe)  
We could be better now (Now you're gone)  
We could be better now (Now you could believe)  
We could be better now (Now you're gone)  
Something's right  
Something's better off  
Without you  
Something's right  
Something's better off  
Without you  
Turn the radio up and we'll sing (Something's right)  
A song to bring you back (Something's better off)  
Turn the radio up and we'll sing (Without you)  
A song, a song  
Turn the radio up and we'll sing (Something's right)  
A song to bring you back (Something's better off)  
Turn the radio up and we'll sing (Without you)  
A song, a song  
Turn the radio up and we'll sing  
A song to bring you back  
Turn the radio up and we'll sing  
A song!
