

# Lewis Watson, Stay

When I close my eyes, I hear you singing  
Singing me a song  
That I'll forget, I always forget

I try to trick myself back to sleeping  
You pick me up, but I let you down

It was so clear, but now it's gone  
I couldn't keep my eyelids shut  
Why can't you stay  
Stay, stay

If only I could dream, we could start again  
If only I could dream, we could start again

When I close my eyes I see you dancing  
Dancing me a song,  
Just out of reach, just out of reach

I need you in the day when I'm not dreaming  
You pick me up, I don't wanna let you down

It was so clear, but now it's gone  
I couldn't keep my eyelids shut  
Why can't you stay  
Stay, stay

If only I could dream, we could start again  
It was so clear, but now it's gone

I couldn't keep my eyelids shut  
Why can't you stay  
Stay, stay

If only I could dream, we could start again  
If only I could dream, we could start again
