

# LHB, Everybody Sees It On My Face

I see the way you look at me  
When we're just talking  
Always got a smile for me  
You're eyes are sparkling  
Think about you everyday  
The things you do  
I really like the idea  
That you thinking of me too  
But it's you again  
Where do I fit in?  
I know that is a sin  
But i want you x4  
I think about you everyday  
Girl you take my breath away  
Just waiting for you to say  
With her has had it's day  
Layin' awake in bed sometimes  
I just can't drink you out of my mind  
I try my best, but all i see it's you 'n' me x5  
But it's you again  
Where do I fit in?  
I'm scared that x7  
I'm scared that everybody sees it on my face x12  
I'm scared that x16
