

Liberty X, Dream About It

Spoken: Are we gonna go in then or just stand out here alright?

Oh come on then

The pretty girl is love shy

She never know until she try

I could be her fantasy

I bet she dreams about me

I didn't wanna talk

I didn't even know your name

But the way that you moved your body

I could tell that you were game

As I moved a little closer to you

You cast your spell on me

I didn't wanna stop

Didn't wanna miss a beat

Cos the passion inside of you

Knocked me off my feet

There was nothing I could do about it

You had a hold over me

It must have been plain to see

But don't go jumping to conclusions

I ain't looking for romance

I'm having the best time now

But please understand

Don't even think that I

(The pretty girl is love shy)

Wanna run away with you

Never assume that I

(She never know until she try)

Could ever feel the way you do

Who said a thing about

(I could be her fantasy)

Love forever true

Don't even dream about

(I bet she dreams about me)

Dream about it

You led me to your ride

(pull pull pull)

Pulled the soft top down

I could tell I'd got your motor running

As we cruised through town

As a warm breeze strokes your body

I felt you touching me

It wasn't just a fantasy

But don't go jumping to conclusions

I ain't looking for romance

I'm having the best time now

But please understand

Don't even think that I

(The pretty girl is love shy)

Wanna run away with you

Never assume that I

(She never know until she try)

Could ever feel the way you do

Who said a thing about

(I could be her fantasy)

Love forever true

Don't even dream about

(I bet she dreams about me)
Dream about it

Don't ever dream that this could be
More than just sexuality
Just 'cos I'm knocking boots with you
Don't need a love forever true
You ought to think yourself lucky
To land yourself a squeeze like me
So just appreciate it
Before you go and waste it

Don't even think that I
(The pretty girl is love shy)
Wanna run away with you
Never assume that I
(She never know until she try)
Could ever feel the way you do
Who said a thing about
(I could be her fantasy)
Love forever true
Don't even dream about
(I bet she dreams about me)
Dream about it

Don't even think that I
(The pretty girl is love shy)
Wanna run away with you
Never assume that I
(She never know until she try)
Could ever feel the way you do
Who said a thing about
(I could be her fantasy)
Love forever true
Don't even dream about
(I bet she dreams about me)
Dream about it

Don't ever dream that this could be
More than just sexuality
Just 'cos I'm knocking boots with you
Don't need a love forever true
You ought to think yourself lucky
To land yourself a squeeze like me
So just appreciate it
Before you go and waste it
