

# Lifehouse, Days Go By

Sit down, sit back and watch the days go by  
Are you ever gonna live before you die  
And when things fall apart  
The world has come undone  
Leave it all behind  
Leave the loneliness alone  
You wait forever blind

So come on and leave the years  
When you watched the days go by  
Come on and leave the fears  
That you were afraid to find  
'Cause while you wait inside  
The days go by

So all the memories fade  
And the days go by  
Forget the lonely yesterdays in mind  
I know it's never gonna be the way you like  
I know you don't wanna think about the endlessness you find  
You wait forever blind

So come on and leave the years  
When you watched the days go by  
Come on and leave the fears  
That you were afraid to find  
You're waiting for your time (waiting for your time)  
All these days gone wrong  
Who broke your fall  
What a way to learn

So come on and leave the years  
When you watched the days go by  
Come on and leave the fears  
That you were afraid to find  
Time is passing by (time is passing by)

So come on and leave the years  
When you watched the days go by  
Come on and leave the fears  
That you were afraid to find  
'Cause while you wait inside  
The days go by
