

# Lifehouse, If This Is Goodbye

And day lights, craving  
Sunshine on this frozen heart  
I am wishing you well  
Wondering how you are  
If you and I are going under  
Maybe we can both recover  
And find forgiveness for each other  
Even if this is goodbye  
And time heals  
But these scars keep on tearing us apart  
And sometimes ending is the only place to start  
If you and I are going under (going under)  
Maybe we can both recover (we can recover)  
And find forgiveness for each other  
Even if this is goodbye  
Is goodbye, is goodbye, is goodbye, is goodbye, is goodbye...  
If you and I are going under  
Maybe we can both recover  
And find forgiveness for each other  
Even if  
If what we had is really over  
If fate is out there we discover  
Let's find forgiveness for each other  
Even if this is goodbye
