

Lifehouse, Stand

waiting
for how long I don't know
it's a long way back from where I've been
and there's nowhere else to go

so I'll stand
with my face to the wind
with my back to the world
I'll follow you
and I'll go
where you tell me to go
no I won't be afraid
no I won't be afraid

I can feel your wind is moving
I'm not sure where it's going
but I'll let it carry me away
cause I'm not staying in this place

so I'll stand
with my face to the wind
with my back to the world
I will follow you
and I'll go
where you tell me to go
no I won't be afraid
no I won't be afraid

and I won't turn around
and I won't turn around
and I won't turn around
no I won't turn around

and I'll stand
with my face to the wind
and my back to the world
I will follow you
and I'll go
where you tell me to go
no I won't be afraid
no I won't be afraid

and I won't turn around
and I won't turn around
and I won't turn around
and I won't turn around

I'll stand
with my face to the wind
with my back to the world
I will follow you
and I'll go
where you tell me to go
no I won't be afraid
no I won't be afraid

and I won't turn around
and I won't turn around
and I won't turn around
and I won't turn around
