

Lifer, Disbelief

tell me when you've had enough
i know i need some
really? huh? do you want some of this?
do you wanna try?
do you think that you've had enough?
you tell me you're falling in love
but i know that you sleep alone
really? huh? do you want some of this?
do you wanna cry?
do you still think that you love me?
i believe in nothing but me
(i asked you something)
(you think you know everything)
(i don't believe that shit)
(can you believe this shit?)
you tell me you think you are right
but i know that you are not
really? huh? do you want some of this?
do you wanna try?
do you still think you are right?
i believe in nothing but me
(i asked you something)
(you think you know everything)
(i don't believe that shit)
(can you believe this shit?)
i believe in nothing but me
(i asked you a question)
(you think you know everything)
(i don't believe that shit)
(can you believe this shit?)
i believe in nothing but me
(i asked you something)
(you think you know everything)
(i don't believe that shit)
(can you believe this shit?)
