

Lighthouse Family, Absolutely Everything

You just waltzed in and, made the sun shine
Admitted everything has started looking up now
Made me feel like I'm, worth a fortune
You brought about a transformation in my life
It's been a long time coming but we've landed on our feet, tonight

Chorus:

You're absolutely everything I'll ever need, baby
Cos absolutely everything you do is so, good
You're absolutely every single thing I need, baby
It must be said I got the most amazin' good, love

So much hurry, over nothing
You know someday we'll do the things we really wanna do
Don't you worry, over time, 'cause everybody's got their own way of life
Slow down baby you'll be landed on your feet, sometime

...repeat Chorus...
