

# Lighthouse Family, Beautiful Night

There's a breeze in the air  
There are stars in the sky  
And I'm sure that there's bound to be a reason  
Why we are here  
But for now we will wonder at the evening sky

So come on baby  
So come on baby  
Give it to your heart's desire  
So come on baby  
So come on baby  
Dig a little deeper down now

It's a beautiful night  
Way up beyond the stars we are  
You can stay all night here  
It's a beautiful night

There's a song that I'm sure I've heard you singing  
That I try hard to hear  
It's a language of love, aha, in a way  
That I don't know  
It ain't loud  
But it's coming over crystal clear

So come on baby  
So come on baby  
Give it to your heart's desire  
So come on baby  
So come on baby  
Dig a little deeper down now

It's a beautiful night  
Way up beyond the stars we are  
You can stay all night here  
It's a beautiful night
