

Lighthouse Family, Heavenly

Don't tell me you're not happy here
And that it don't mean a thing
You're waiting for a better deal
But that is not my scene
Cause if you live for later
But not today
You're gonna miss a lot of wonderful things
So just investigate it
It's not too late
Don't underestimate the wonder of this

Only one that ever makes me feel totally heavenly
Ever wondered what would make you feel heavenly yeah

I'm finding a new side to you
You're a quite a discover
I'm finding out
I'm starry-eyed
And money don't mean a thing
Cause if you live with someone
You find a way
To understand that it's about give and take
And if you give to someone
You start to see
The opportunity's too good to throw away

Only one that ever makes me feel totally heavenly
Ever wondered what would make you feel heavenly yeah

Dream the dream girl
Let it take you there
A lake of heaven for the two of us to share
Ground beneath you
Gonna disappear
Leave the real world now and
Let it take you there
