

# Lights Of Euphoria, Nothing At All

Cold steel  
Cold blood  
Feel nothing  
Nothing at all  
Expansion is key  
No you  
No me

I have nothing to live for and no self-esteem  
I was used to being different  
Now I'm in a machine

The knowledge I gather is valid for all  
We used to have reason  
Now we've nothing at all

Extinction is near  
Fear nothing  
Nothing at all  
Existence fades out  
No emotions  
No doubt
