

Lightspeed Champion, Midnight Surprise

Shoot me into sleep, your beauty is so close to me

And even better still, warm nights and the chill
Creeping down my bones, reminds me I'm alone
My sweet midnight surprise, staple down my eyes
Stars I cannot see, take me galaxy

Deeper in the zone, 2-player combo mode
Creeping down my bones, reminds me I'm alone
My sweet midnight surprise, staple down my eyes
Stars I cannot see, take me galaxy

Ejacquantumbreeze!

And even better still, warm nights and the chill
Creeping down my bones, reminds me I'm alone
My sweet midnight surprise, staple down my eyes
Stars I cannot see, take me galaxy

Deeper in the zone, 2-player combo mode
Creeping down my bones, reminds me I'm alone
My sweet midnight surprise, staple down my eyes
Stars I cannot see, take me galaxy

Ejacquantumbreeze! Even in the sea
Replace all meaning - "I-spy"

Fuck, I think she just saw me, stop hiding in the sea
Shit, my midnight surprise has found out all my lines
Crunch time, night time, palm luxuries which I mistake for life
Don't talk to me, stay away unless you want me near you

I'm waiting in silence and cloaking my violence
You, almost encourage my happiness, but I know best
Wake up, smell the semen, this will never happen for you
Evil waits inside your home and shakes you through and through

Oh, wake up princess

I guess, deep down, my heart is not as pure as it was
And my food is ruined, the freezer doorway to above
I'll fire in the sun, I'm dying just for fun

And what is left of this?
My fare is calling down for you all to go away, forget this all exists
I fly up in the sun, I'm dying, just for fun

As I lay in bed, wrapped in cold sweat, just take me now

Shoot me into sleep...
