

Lil Baby, 2040

(Forever Rolling... Flexin on dat...)

I'm doing donuts in my neighborhood it made me feel good
I swear I would never do that shit again but still do it
I feel better with no IG but I'm too big of influence
Live your life don't try to make someone else have that shit might ruin y'all
I make money off all types of shit, I got stocks for me and my children

I done put a wild body on the lamb truck it look sexy call it Ms Urus
Fuck the panarama I'm serious
I got 200 bands in each ear
I was damn near a man before I started
Rapping these other niggas just cappin'
I could take the top off while the car going
Call it getting nasty in traffic
I done reached another bracket 8 figures taxes
I can't touch a Bitch if she average
Any location play we getting at em
All this shit come and go it don't matter
These boys selling to em and you ain't at em
We don't even social beef we get active
Everybody killing now till something happen
I'm feel uncomfortable without a ratchet
I might shoot my shot at what cha call it

I'm forever ballin
I might eat her pussy good and never call her
I been running from her I heard you a stalker
We is not the same lil nigga
I been drugged through the mud
Had a girl for the plug
I put numbers on the board
This is not for no award
I get money that's enough
If I get em that the plug
Handle business is a must
Gettin feelings when you trust
Came from prison didn't have nothing
Run it up a couple months
Buss down Patek game from Thug
Boy you know that's real love
I ain't never changing up

If I like you you lucky
Ima change ya whole life like it's nothing
Girl I know not to stare when you come in
And I be busy I'm not in my comments
I be playing with that fire like I'm John wick
Don't be walking up on me
How we balling in 2040
I promise I'm not for the moment
I be killing that shit when I get there I wake up and kill it again in the morning
I be chilling but trust me I handle that business when it's time to get it, I zone in
I'm the same way if I'm with 50 niggas who be killing or by my lonely
I be laughing a lot but don't get it confused in the blink of an eye I'd click
I ain't never gon switch

Switch for what?
I give you everything you want
Bitch for what?
I call bitch right out the blue when off this Perc like, "get this nut"
If you play with my name I'm getting you touched
Two-hundred a show not feeling enough
I like switches

They take fifties
A nigga like me hate filling them up
I on talk much
Nigga like me go get that cash I'm getting you touched
Molly, Percocet, mask on or it's off, don't give no fuck
I pay rent to lawyers
Go the Lamb truck cash
I can't rent no Goyard
Growers call growers for that weed just to fill this order

I know bitches act like they know Baby so they feel important
I know niggas pay niggas for safety so they get extorted
I got shooters take off half the city I just get them Jordans
Rather send off all these goofies 'round me, just not none of my shorties
My foot on the gas
I'm on they ass turnt
My homie just died off a bad Perc
I'm lucky, you lucky, just ask Smurk
Put an opp in the wood first
You suck it good, you get a good purse
Twenty-million I was in the trenches I don't steal no business, I'm The Voice can't give out a bad ve

If I like you you lucky
I'ma change ya whole life like its nothing
Girl I know not to stare when you come in
And I be busy I'm not in my comments
I be playing with that fire like I'm John wick
Don't be walking up on me
How we balling in 2040
I promise I'm not for the moment
I be killing that shit when I get there I wake up and kill it again in the morning
I be chilling but trust me I handle that business when it's time to get it, I zone in
I'm the same way if I'm with 50 niggas who be killing or by my lonely
I be laughing a lot but don't get it confused in the blink of an eye I'd click
I ain't never gon switch
