

# Lil Baby, Intro

Know I'm sayin'

This that new wave shit know what I'm sayin'

This that new wave shit ya dig (4 Pockets full know what I'm saying, we the gang)

I'm smoking loud this that moonrock

They tryna sue cause I'm gettin' paper

I dropped out of school and got no education

My momma, she happy 'cause I finally made it

She living better, her house big as fuck

Buy her a Bentayga Bentley truck

With a AP today, tomorrow switch it up

Honeycomb diamonds VVS's cut

Standing on stage, I really came from nothing

I took me a break, don't mean I'm getting rusty

I'm gaining this weight they say I'm getting husky

I stand on front line I'm all about the fucking

I go where I want, no one better not fuck with me

Stand in the glizzy shoot til' it's empty

I come from the projects jumping over fences

I found me a plug and went and made a killing

I think we in love we should just have some children

Them narcs I been sipping got to have me trippin'

I didn't come to play I had to reinvent me

I handle my business now I'm worth some millions

Remember the safe deposit vault was empty

Them niggas weren't fucking with me they weren't friendly

If you went with me back then, then you ain't seeing him with me

We like Kanye and Kim, you like Bobby and Whitney

Real dope boy I ain't nothing' like the weirdos

Never seen me putting on no weird clothes

It cost a lil more when it's real gold

We already up keep the field goal

Remember that day that I had lost all that cake

I had to go in the safe

I had to get me a pot and cook that shit up

Had 'em calling me Quay

I had got that shit back in like twenty-some-days

Ain't no chump change, I'm talkin' bout' 500k

I went straight to the lot and went bought me a wraith

Ain't no more being humble put it in they face

I won't feed in the drama I'm loving the hate

But one thing for sure, Lil Baby go crazy
