

Lil Eddie, In stereo

Oh yeah

One foot in the door, the whole room paused, like I was in slow motion
Had the girls & more, and I was so sure, where my night was going
There were different flavours, all in my favour, down to do whatever
Baby not the same, much no complaining cant get any better

[Chorus 1:]

You are a me it's not your good looks, it can all crawl sweet if its understood
Baby

We can all get along tonight there's enough of me there's no need to fight
Let's keep this party going all night long

[Chorus 2:]

Which way do I go got one in every dance turning me on in stereo

Cause wanna raise a bar

Can start a dream in coming home

With me let it get close with me

[Chorus 3:]

I just have to take them both to the crib so we can bump in stereo

Bump bump bump bump in stereo

Bump in stereo

I just have to take them both to the crib so we can bump in stereo

It's every mans dream to be in between have youre way with 2 women

Both look mean both want me so I make a decision

The way I see good things come in threes, Ill make it my mission

The more the merrier no need to now start up a division

[Chorus 1:]

You are a me it's such a good look, it can all crawl sweet if its understood
Baby

We can all get along tonight there's enough of me there's no need to fight
Let's keep this party going all night long

[Chorus 2:]

Which way do I go, wanna never forget, turning me on in stereo

Cause wanna raise a bar

Can start a dream in coming home

With me let it get close with me

[Chorus 3:]

I just have to take them both to the crib so we can bump in stereo

Bump bump bump bump in stereo

Bump in stereo

I just have to take them both to the crib so we can bump in stereo

No need 2 get away, take the three-way

I want to gone to get bad on the backstreets

Up up all day is it ok

Get it round after round keep it going on the b sheets

Not the kinda way take a free way

I want to gone to get bad on the backstreets

Up up all day is it ok

Get it round after round keep it going on the b sheets

[Chorus 2:]

Which way do I go, wanna never forget, turning me on in stereo

Cause wanna raise a bar

Can start a dream in coming home

With me let it get close with me

[Chorus 3:]

I just have to take them both to the crib so we can bump in stereo

Bump bump bump bump in stereo

Bump in stereo

I just have to take them both to the crib so we can bump in stereo
