

Lil Fizz, Thank You

It was just another shoot, another video to me
So you was just another face, another silly chick, I mean
You understood, it's hard to be a man in my place
But you looked at me as more than just B2K
I never thought I'd take a liking to you
I tried to play you to the left and made a right into you
Late nights, 2-waying, stay writing to you
But not once did I think I'd be fighting with you or laying up
But you was a breath of fresh air, reason for staying up
So I opened up and started giving you more
I really thought you liked the homie but you was feeling me more
But it's hard to be for real when a nigga's on tour
So we decided to keep it basic and just talk on the phone
Make plans to do it grand when I made it back home
'cause you would make it feel right when everything went wrong
The only one who shared light when I was dark and alone
So I thank you

Girl you really didn't care what they said about me
They said without the group they would forget about me
Now I'm moving on and I can't see you without me
All I wanna do is say I thank you
(x2)

Yo, Yo
We had our trying times full of me frontin' and tryna buy time
Lots of arguements 'cause you's a water and I'm a fire sign
But you remember watchin the water by the fire side
You promised me no matter what you would always stay by my side
So you was there when I went to buy the drop
Through wild ass winter we was chillin on the yacht
In the villa on your birthday blew a digit on your watch
Then we right back home cold chillin on the block
Plus you stayed down when your moms was trippin
Didn't trip off other chickens 'cause our bond was different
And just thinkin of the times I got you to miss your curfew
The first time I put it on you, you were scared I would hurt you

So you held tight told me to take it slow
And from that look on your face, that night, I know
'cause it was filled with such pleasure and pain
It said you never would change
And all you needed was my love in exchange

Girl you really didn't care what they said about me
They said without the group they would forget about me
Now I'm moving on and I can't see you without me
All I wanna do is say I thank you
(x2)

You was around when I switched up all the industry stuff
But I remember when the break up almost caused our break up
And sensitive when I say stuff, be gone when you wake up
But still you held me down all through the B2K stuff
And there were moments when I played you and shaded you
Times I did things that might have jaded you, I'm sorry
If I could take it back when I flipped
You take me back even after I said some foul shit and refused to take it back, but
We hit the beach and go and spend hours there
You told me you would ride to the dollars dead, the dollars dead
We go together like trees and koala bears, or Kevin and Britney, Ashton Kutcher and Demi, so
I could never put another in your place
And everything I do now is to put a smile on your face girl

Please just believe me when I say that you my heart, my world, my nigga, my ace

Girl you really didn't care what they said about me
They said without the group they would forget about me
Now I'm moving on and I can't see you without me
All I wanna do is say I thank you
(x2)

I wanna say thank you
I wanna say thank you
