

Lil' Rob, City That Everyone Knows

I'm from the City that everyone knows
All clean creased up on my clothes
Hit the street and hop the low low
Even got hydraulis on the Limo

I'm from the city that everyone knows
All clean creased up on my clothes
Hit the street and hop the low low
Got my baby waiting in the limo

It's all real to me homes don't need to make shit up
I don't kick it with you vatos cuz you fake the funk
You never once had my back your just some fuckin punks
Why sit and why ask who to trust
When the answers so obvious
It's no one it's no fun
Putos talking shit and they just go on and go on (so on)
I'm giving you something to go on
I got myself and Oldie CD I want to throw on
Mix it with some hip-hop makin sure it's tip tip
Shape for your rafla bump it like ya want ta
Add some Mexican rap to your collection
Imagine hoppin you ride
Bump'n this, in tha...intersection
Interesting isn't that what Mexicans do?
We can put id down too it's 2002
I guarantee you'll see me in 2003
In a 2004, fuckin slammed on the floor
(Chorus)

It's time I pick up the pieces
Get sick like Diseases
Don't you understand I don't want to be like he is
I mean it I can only call it like I see it
See it then I call it drink like Alcoholics
Only drop the bomb shit only smokin chronic
Let me make a phone call if I don't already got it
Now watch this Whatcha I'm on the deadline
What can we give this fuckin guy so he could write some rhymes
A pack of llerva six pack de cervesa
But most important of all homes it's the feria
I need some kind of modivation dog
I's not enought just having people hating Little Rob
I'm here ta..Open your eyes and make you all see
Chicano rap is also rap so why are they labeling me
Hating on me I deserve some fucking radio play anytime
Day Night not once a week one time on Sunday (You know)
(Chorus)

Pull out some lyrics I have folded in my pocket
Hold it up in front of the mic then I rock it (can't stop it)
Every car I own I have to drop it
Fix it up switch it up that way I can lift it up over speed bumps
I need bumps bumping out some oldies
Cruise around go and place some horseshoes with the homies
Have a couple Cheves, chillin y my Chevy
Gonna grab another beer is anybody with me
I don't have a bottle opener, I gotta use my lighter
Always got a lighter cuz I always use the fire
To light the lleno I gotta.. Bicentennial
Put on some homegrown, this gets me stoned homes
Go a little loco, feelin like a tonto
That's how you know it's almost time to go home
And get ready for the night time
Cuz Ray charles said it best Night time is the right time
(Chorus)
